

Training Leaders in Knowledge, Wisdom, and Godly Character

## **Job Posting: Secondary Science Teacher**

The King's Academy is seeking a secondary science teacher to join our staff and become part of our caring, Christian culture. Responsibilities include developing engaging lesson plans and curricula, collaborating with other teachers, completing student assessments, and managing classroom behavior. Candidates should be able to teach students from varied cultural backgrounds and those with differing ability levels.

A successful science teacher at TKA will be a curious, lifelong learner with a drive to discover new things, a passion for working with young people, and a desire to serve in a Christian school environment.

### **Science Teacher Responsibilities:**

- Design, develop, and deliver quality lesson plans and curricula through a Christian worldview that adheres to school guidelines.
- Develop appropriate assessments and deliver helpful and timely feedback to students and parents.
- Establish classroom rules and procedures that ensure all students understand what is expected.
- Set up demonstrations and assist and supervise students while they conduct experiments.
- Provide extra resources, support, and interventions for students with differing abilities.
- Grade papers, update records, and handle administrative tasks.
- Create an environment where students feel comfortable asking questions and voicing concerns.
- Participate in school activities and regularly communicate with parents.

### **Science Teacher Requirements:**

- Degree in science or a related discipline
- A teaching certificate is desired
- Teaching experience preferred
- Experience with student management systems and Google for Education
- The ability to answer questions in a manner that fosters student learning
- Creates a classroom environment where each student feels valued
- A passion for science and a commitment to education
- Strong communication, interpersonal, and problem-solving skills
